1. Welcome to the new edition

Step by step towards Blue-Chip status

Since 2012, we have been guiding women artists on their path into the international art market. With Women in Art 2.1 we have created three programs that provide structure, secure visibility, and document value: Women in Art at the Auction, Catalogue Raisonné 2026 and Curated Art for Rent. This magazine explains each model in detail.

Women in Art at the Auction Visibility · Reputation · Blue-Chip Status
